

YOUR FIRE PROTECTION INFORMATION IN THE PALM OF YOUR HAND

The My Hiller app takes Hiller's service delivery and customer service to the next level by putting your fire protection equipment and system information into your hands. By integrating our service platform, ServiceTrade, within the My Hiller app, we are able to provide you with real time work updates as work is completed after each service. From initial quotes through ongoing inspection, service and repair, the flow of information for your locations is streamlined so that you can make informed decisions in a timely manner.

Customer Benefits:

Peace of Mind— Assurance that your facility or business is compliant and your inspections and services are completed on time.

Accountability—Confirmation that the work you hired us to do was completed to our high standards and to the applicable code.

History of Service—Online access to your service history that can be accessed anytime, anywhere.

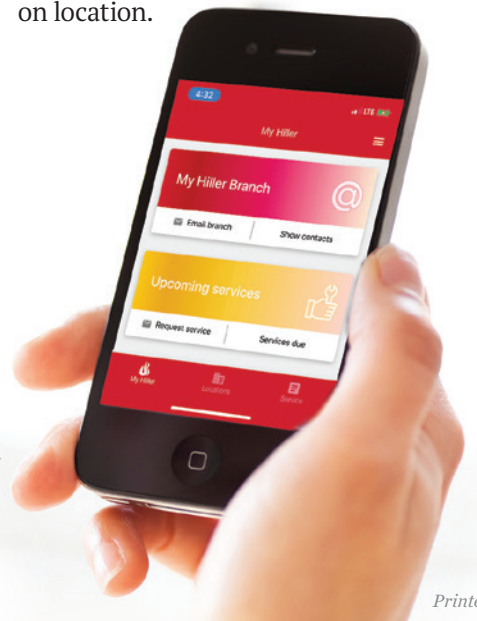

Compliance—Confidence that you are in compliance with industry standards and codes at all times.

Maintenance—Quickly access quotes with photo reference to approve and plan for repairs while on location.

Download the app now to access your service information at the click of a button.

If you would like to receive additional information about the My Hiller app or would like to request a demo, please contact your local Hiller branch or sales associate for assistance.
