WHAT TO LOOK FOR IN A FIRE PROTECTION COMPANY

The importance of fire protection in the life of a business cannot be overstated. Knowing your people, property and assets are protected allows you to focus on your ultimate goal — running a successful company. The Hiller Companies is dedicated to making sure we take fire safety concerns off your hands and into ours. As your one source for total protection, we understand what it takes to customize a plan to meet your individual needs from design and installation to inspection and maintenance. Our experience, our process and our dedication to quality service and products make up The Hiller Difference.

hillerfire.com

Experience. Process. Service.

For over 100 years, Hiller has been laser-focused on one goal — designing, installing, and servicing the most compliant fire protection systems available. With a century of experience in the fire protection industry, we have gained the confidence of those we protect. Whether it's an aircraft carrier or a local airport, a hospital or an urgent care center, locally and globally — **Hiller makes the difference.**

Our process is one of the aspects that makes us unique in the fire protection industry. Over our long history, Hiller has perfected a tried and true cycle of activities to ensure a smooth transition throughout the development and maintenance of your fire protection systems with your safety as our top priority.

Steps include:

- ▶ Design
- ▶ Installation
- ▶ Commission
- ▶ Customer Training
- ▶ Inspection
- ▶ Repair
- ▶ Technology Upgrades

Our service management platform, [servicetrade](#), allows each of the steps in the process to be tracked and monitored. This application allows for online scheduling, report delivery, eQuotes and access to service history records. Our customers can be assured that access to Hiller through ServiceTrade allows for stronger relationships through better communication, real time perspective on compliance of your systems and timely access to your reports.

Through the My Hiller App, powered by ServiceTrade, you can track and monitor each of the steps in the process we use to maintain your fire protection systems. This application allows for online scheduling, report delivery, eQuotes and access to service history records. Our customers can be assured that access to Hiller through the My Hiller app allows for stronger relationships through better communication, real time perspective on compliance of your systems and timely access to your reports.

When you are looking for a fire protection company to protect your people, your property and your assets...The Hiller Companies invites you to experience The Hiller Difference.
