Monitoring

Know the Facts.

According to the National Fire Protection Association (NFPA), from 2014-2018, U.S. fire departments responded to an estimated annual average of 3,230 structure fires in schools.

From 2014-2018, fires in school properties caused an estimated average of one civilian death, 39 civilian injuries, and \$37 million in direct property damage per year.

Three in five school fires were small fire incidents identified as confined fires, meaning they were confined to the cooking equipment, chimneys, fireplaces, boilers or trash in which they ignited.

Two in five school fires (43%) were intentionally set. Fires with an intentional cause were more prevalent in high school and middle schools (44% of total) than in elementary schools (33%)

Almost one-third of school fires were caused by cooking equipment (31%) and 10 percent by heating equipment.

Full Service Protection

The importance of effective fire detection and suppression systems cannot be overstated when it comes to schools and universities, given the high volume of occupants in these facilities. Hiller offers comprehensive, customizable services including design, installation, inspection, service and repair of your fire protection system. Many of the inspections take place in the summer months while school is out of session. We also offer security solutions such as cameras, access control and active shooter notification systems, which have unfortunately become increasingly necessary in recent years due to heightened security threats.

From single buildings to universities with multiple campuses, the Hiller team is equipped to customize a solution to meet your needs as well as NFPA regulations and your local authorities having jurisdiction. With one call, we can take care of all of your fire protection and security requirements.

In 2015, the NFPA 45 standards regarding the use of chemicals in laboratory-scale operations changed. If you are uncertain if you are meeting these requirements, please contact us for further information.

Our services include:

Fire Extinguishers

- ▶ Mobile Service Fleet
- ▶ Install & Service
- ▶ Inspections & Repairs
- ▶ Hazard Analysis
- ▶ Staff Training Available

Fire Sprinkler Systems

- ▶ Design, Install & Service
- ▶ Inspections & Repairs
- ▶ Obstruction Investigations
- ▶ Temporary Fire Pump
- ▶ All Components, Including:
 - Fire Pumps
 - Backflows
 - Fire Hydrants
 - Wet Pipe/Dry Pipe
 - Pre-Action/Deluge

Emergency / Exit Lighting

- ▶ Install & Service
- ▶ Bulbs & Batteries
- ▶ On-site Monthly & Annual Maintenance Programs

Fire Alarm Systems

- ▶ Design, Install & Service
- ▶ Inspection & Repairs
- ▶ Experienced in All System Brands & Types

Fire Suppression Systems

- ▶ Design, Install & Service
- ▶ Inspection & Repairs
- ▶ Clean Agent Systems
- ▶ Protection of:
 - Document Centers & Archives
 - Laboratory Equipment
 - IT Rooms
- ▶ Fire Damper Testing

Kitchen Fire Suppression Systems

- ▶ Design, Install & Service
- ▶ Inspection & Repairs
- ▶ Factory-certified Technicians
- ▶ UL-300 Upgrades
- ▶ Hazard Analysis

Safety Products

- ▶ Install & Service
- ▶ Fire Hose, Nozzles & Accessories
- ▶ Flammable Liquid Storage Cabinets
- ▶ Safety Supplies
- ▶ Signs, Labels & Tags
- ▶ Fire Extinguisher Cabinets

Security Systems

- ▶ Design, Install & Service
- ▶ Inspection & Repairs
- ▶ Access Control
- ▶ Mass Notification Systems
- ▶ Badging Systems
- ▶ Central Station Monitoring
- ▶ Local Provider
- ▶ Intrusion Detection Systems

Training Opportunities

- ▶ CPR & First Aid
- ▶ OSHA 10
- ▶ Fire Extinguisher Training

Monitoring

- ▶ Install & Service
- ▶ 24-Hour Alarm Central Station Monitoring Available
- ▶ Online Customer Service
- ▶ Fire Alarm & Suppression Systems
- ▶ Security Systems
- ▶ UL Listed
