

PROTECTING LIVES AS YOUR ONE SOURCE FIRE PROTECTION & SECURITY PROVIDER

Full Service Protection

Founded in 1919, The Hiller Companies is a full service fire protection and security provider. From design and installation to inspection, service and monitoring, Hiller provides an extensive range of offerings to healthcare organizations for the protection of people and property. These offerings can be customized to fit specific needs as well as meet the compliance standards of all major healthcare accreditation organizations.

Hiller is a full service fire protection and security provider. From design and installation to inspection, service and monitoring, we provide an extensive range of offerings to healthcare organizations for the protection of people and property. These offerings can be customized to fit specific needs as well as meet the compliance standards of all major healthcare accreditation organizations such as DNV, HFAP, The Joint Commission and AAAHC. Thorough documentation lays the foundation for quality, traceability and accuracy for both your facility and the appointed AHJ. It is essential that the documentation be well organized and easy to understand. With our proven methods of documentation, we simplify the process while maintaining the highest standards. The process is overseen by one of our experienced documentation specialists who is on standby during AHJ quality audits.

Healthcare facilities governed by Centers for Medicare & Medicaid Services and The Joint Commission must comply with the Life Safety Code (NFPA 101) and the Health Care Facilities Code (NFPA 99). If you are uncertain if you meet these requirements, please contact us for further information.
